*Five Dates* takes you on a journey with Julia: the best mom, daughter, wife, sister, and friend there could be. Although being the one everyone turns to for all their own needs Julia seems to have lost her self-worth. At 44 years old is

she where she expected to be? Her husband reached his goals (with her help), but what about her dreams and goals? Where did they fall away and become unimportant? Asked to reflect on her life and put herself first for once, her family and friends decide to help and put some fire under her husband to help create new sparks. Her closest friends and family plan her dating adventures with her husband so read along for the laughter, passion, and Julia finding her dream that was lost.

Let me tell you a little about me and why this book and its many characters have been taking up real estate in my brain. I grew up in the suburbs of Chicago, with close friends, family, and mostly happiness. I did what most of us dreamed of: grow up, marry, have a family, and live happily ever after. This came true for me, except the marriage part had its thorns and was removed from the equation. It was during my divorce at nearly 30 years old that I turned to books, ROMANCE NOVELS. Seriously, what timing right?!

My divorce was brutal, I had a beautiful little girl to protect and god bless Danielle Steel and White Zinfandel to get me through the process of becoming divorced and a single mom. Romance novels became my fuel and I could easily escape into the world of love, lust, and desire. Maybe it was the Cinderella dream, but I didn't want to believe my happiness wasn't still out there waiting to be found.

I'm an avid reader and can easily read 200 books a year and still, it allows me to escape life's daily downers and stressors. I found that my love for a romance series where I can feel like part of a family and learn all the in and outs of their lives is where I really loved to escape and live in those worlds

with my characters. This joy is what- after many years of procrastination- helped developed Lake Harmony and the characters that reside there. One difference is at 50 years old I wanted to read about more mature love stories. Hard to enjoy a love story about characters the same age as my daughter. (yikes)

This series will introduce you to the Stone Family- where each character has a little something of myself or someone that I have crossed paths with in the past. Read along, maybe you will find some similarities too (especially if we grew up together) or you come from the Midwest too! The series begins with Julia, the oldest daughter, and her story.
